<b>Office Action Summary</b>	<b>Application No.</b> 10/595,673	<b>Applicant(s)</b> SONG, JANG-WOO	
	<b>Examiner</b> Chuck Mah	<b>Art Unit</b> 3677	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: page 4, line 21, "bold" should be "bolt". Page 4, lines 22-23, "piston 2...catch rod 2a" does not match the reference numerals of the figures.

Appropriate correction is required.

2. The claims are objected to because they include reference characters which are not enclosed within parentheses.

Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements in the claims should be enclosed within parentheses so as to avoid confusion with other numbers or characters which may appear in the claims. See MPEP § 608.01(m).

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is not clear whether applicant attempts to claim "a door closer" subcombination or a closer-door combination. The preamble of the claim limits

the scope of the claim to "A door closer" subcombination. However, "...installed at al door 10" and "installed at the doorframe 11" in the claim body suggest a door closer-door-frame combination.

In claim 1, marked line 6, "to right or left side" is vague and indefinite since the relative positioning of the closer is not clearly given to define "right or left side". Lines 9-10, it cannot be understood what "hemi-cylindrical shaped protrusions" is referring to and how the protrusions are structurally related to other elements. Line 11, it is not clear what is being defined as "the longitudinal direction".

In claim 2, line 2, "can be, if needed,..." renders the claim indefinite since the clause "can be, if needed..." is a mere conditional statement, not necessary a true statement.

In claim 4, line 4, "so that the piston rod 3 can be moved in the force adjustment nut 7" cannot be understood structurally.

In claim 5, lines 6-7, it is not clear what "one end of it being blocked by a round plate with a small central through-hole" is referring to, structurally.

***Allowable Subject Matter***

5. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Mah whose telephone number is (571)272-7059. The examiner can normally be reached on 5/4-9.
